

Cumulative Index 1983, 1984, and 1985

Volumes 3, 4, and 5

Note: The volume year is in *italic* type. Page numbers of symposia and article titles are in **boldface** type.

SYMPOSIA

1983

<i>March</i>	COMPUTERS IN THE CLINICAL LABORATORY
<i>June</i>	FORENSIC PATHOLOGY
<i>September</i>	LABORATORY MANAGEMENT
<i>December</i>	TISSUE IMMUNOPATHOLOGY

1984

<i>March</i>	CONTROVERSIES IN LABORATORY MEDICINE
<i>June</i>	COAGULATION
<i>September</i>	ENVIRONMENTAL AND OCCUPATIONAL HEALTH HAZARDS
<i>December</i>	ISSUES IN LABORATORY ENDOCRINOLOGY

1985

<i>March</i>	BACTERIAL IDENTIFICATION SYSTEMS
<i>June</i>	BODY FLUID ANALYSIS
<i>September</i>	NUCLEIC ACID PROBES AND MONOCLONAL ANTIBODIES IN THE DIAGNOSIS OF INFECTIOUS DISEASES
<i>December</i>	COST CONTAINMENT IN THE LABORATORY

Abbott Bacterial Identification System (BID), 1985: Mar., 92-93, 95
Abortions, spontaneous, repeated, chromosomal abnormalities in, cytogenetic evaluation, 1984: Dec., 841-842
Abuse. See *Child abuse*.
Accident(s), drug use and, 1983: June, 306, 379-380
hit-and-run, collection of evidence in, 1983: June, 357, 364
Accident reports, 1983: Sept., 476

Accuracy, in quality control studies, 1983: Sept., 548
Acetylcholinesterase, assay of in amniotic fluid, 1985: June, 374
Acetylsalicylic acid, effect on inflammatory response, 1983: Dec., 706
Acid phosphatase, measurement of, to detect semen, 1985: June, 370
Acquired immunodeficiency syndrome (AIDS), common immunologic abnormalities seen with, 1984: June, 334

- Acquired immunodeficiency syndrome (AIDS) (*Continued*)
 in hemophiliacs, 1984: June, 333-344
 immune abnormalities and laboratory findings in, 1984: June, 338-340
- Activated partial prothrombin time (APPT), 1984: June, 221
- Activated partial thromboplastin time (APTT), 1984: June, 295
- Adenocarcinoma cells, electron microscopy of, 1985: June, 226-227
- Adenomas, pituitary, 1984: Dec., 643-654
- Adenovirus(es), detected by spot hybridization, 1985: Sept., 491-493, 497-498
 diagnosed by nucleic acid sandwich hybridization, 1985: Sept., 484-485
- Adrenocorticotrophic hormone, ectopic, 1984: Dec., 775-778
 measurement of, in hypercortisolism, 1984: Dec., 693-696
 hypersecretion of by pituitary adenomas, 1984: Dec., 650-651
 in regulation of cortisol secretion, 1984: Dec., 684-686
 mass effects of pituitary tumors on, 1984: Dec., 645-646
- Adult respiratory distress syndrome. See *Respiratory distress syndrome, adult*.
- Agar replica system, for identification of bacteria, 1985: Mar., 67-89
- Agarose gel electrophoresis, in plasmid fingerprinting, 1985: Sept., 416, 418-422
- Agglutination, of monoclonal antibodies against *Streptococcus agalactiae*, 1985: Sept., 552
- AIDS. See *Acquired immunodeficiency syndrome*.
- Airflow obstruction, chronic, emphysema and, 1984: Sept., 548-550
- Alcohol, beverage, defined, 1983: June, 385-386
 ethyl, blood levels of, 1983: June, 383
 in fire victims, 1983: June, 306
 metabolism of, 1983: June, 388-389
 poisoning by, 1983: June, 385-396
 ingestion of by children, 1984: Sept., 595
- Algorithms, in diagnostic process, 1984: Mar., 7
- Alkaline phosphatase, in assessment of bone metabolism, 1984: Dec., 767-768
 in ELISA procedure, 1985: Sept., 603, 605
- Alkaline phosphatase antialkaline phosphatase reaction, 1985: June, 234, 236-237
- Allograft, rejection, mechanisms of, 1983: Dec., 764-765
- Alpha-fetoprotein, in amniotic fluid, 1985: June, 373-375
 in cerebrospinal fluid, 1985: June, 306
 in maternal serum, 1985: June, 375-376
- Alpha₂-antiplasmin assay, synthetic substrate for, 1984: June, 391
- Aluminum, neurotoxicity of, 1984: Sept., 491-493
- Alzheimer's disease, aluminum and, 1984: Sept., 492
- Amenorrhea, 1984: Dec., 720-723
- American Association of Blood Banks, 1983: Sept., 448
- Aminoglycosides, staphylococci resistant to, 1985: Mar., 114
- Ammunition. See also *Bullets; Cartridges*.
 historical development of, 1983: June, 259-260, 274-277
- Amniocentesis, 1985: June, 373-389
 third trimester, indications for, 1985: June, 382
- Amniotic fluid, analysis of, for infection, 1985: June, 212-213
 for neural tube defects, 1985: June, 242
 in prenatal diagnosis, 1985: June, 373-389
 maternal cell contamination of, 1985: June, 380-381
- Ampicillin, *Haemophilus influenzae* resistant to, 1985: Mar., 115
- AMS Gram-Negative Combo, for identification of *Enterobacteriaceae*, 1985: Mar., 72-74
- AMS POS Combo, for identification of *Streptococcus*, *Staphylococcus*, and *Micrococcus*, 1985: Mar., 72-74
- Anabolic steroids, increased antithrombin III deficiency with, 1984: June, 263
- Anaerobes, susceptibility testing of, 1984: Mar., 109
 systems for identification of, 1985: Mar., 59-65
- Anaerobe-Tek kit, for bacterial identification, 1985: Mar., 31
- Anaerobic culture, collection and handling of specimens for, 1983: Sept., 534
- Anaphylaxis. See also *Inflammatory response*.
 mediators of, 1983: Dec., 619-643
- Anaphylatoxin. See *Complement*.
- Anatomic pathology, computer information systems in, 1983: Mar., 133-147
 laboratory, 1983: Sept., 477
- Angiodysplasia in von Willebrand's disease, 1984: June, 311
- Angiotensin converting enzyme, in endotoxin-induced lung injury, 1983: Dec., 731
 subcellular sites of, 1983: Dec., 581-583
- AN-IDENT system, for identification of anaerobes, 1985: Mar., 28, 64-65
- Antibiotics, bleeding due to, 1984: June, 238
 for antimicrobial susceptibility testing, 1984: Mar., 101-105

- minimum bactericidal concentrations of, 1984: Mar., 111
- prolonged use of, *Candida* proliferation caused by, 1985: June, 346
- tolerance to, 1984: Mar., 112
- Antibody(ies). See also *Antigen/antibody systems*; *Immunoglobulins*; and *Monoclonal antibodies*.
- detection, by laboratory techniques, 1983: Dec., 757-760
- for detection of viruses, 1985: Mar., 140-146
- neutralization of, in estimation of factor VII antigen, 1984: June, 233, 234
- production in hybridoma cell lines, for production of viral antisera, 1985: Mar., 147
- Antibody assays, IgM, in detection of viruses, 1985: Mar., 147-149
- Antibody marker(s), of connective tissue disease, 1983: Dec., 754-757
- of endocrine disease, 1983: Dec., 750-753
- of liver disease, 1983: Dec., 749-750
- of muscular disease, 1983: Dec., 753
- of skin disease, 1983: Dec., 753-754
- of thyroid disease, 1983: Dec., 750-752
- Antibody-gel technique, in immunoassays, 1984: June, 347-348
- Antibody staining, direct fluorescent, for rapid diagnosis of legionellosis, 1985: Sept., 565
- Anticoagulant(s), circulating, test for, 1984: June, 297
- lupus, protein C and, 1984: June, 272
- Anticoagulant therapy, in antithrombin III deficiency, 1984: June, 260
- laboratory control of, fibrinopeptide A assays in, 1984: June, 375-377
- Antidiuretic hormone, secretion and action of, functional tests of, 1984: Dec., 737-742
- Antidotes, 1984: Sept., 621-624
- Antigen(s). See also under specific antigens.
- carcinoembryonic, 1985: June, 246-248
- epithelial membrane, 1985: June, 248-249
- Factor VII, radioimmunoassay of, 1984: June, 233
- identification of, by immunofluorescent and immunoenzyme techniques, 1985: June, 234-239
- in hemostasis, immunoassays for, 1984: June, 348-351
- oncofetal, in cerebrospinal fluid, 1985: June, 305-306
- tumor cell, in cerebrospinal fluid, use of monoclonal antibodies to identify, 1985: June, 311-312
- Antigen/antibody systems, for bacterial identification, 1985: Mar., 20-21, 23, 27, 44-55
- Antiglobulin test, direct, cost containment and, 1985: Dec., 796
- Antimicrobial susceptibility testing, antibiotics for, 1984: Mar., 101-105
- controversies in, 1984: Mar., 99-121
- direct and mixed, 1984: Mar., 116
- disc vs. MIC procedures, 1984: Mar., 107-109
- interpretation of, 1984: Mar., 105-107
- organisms requiring, 1984: Mar., 100
- quality control of, 1984: Mar., 115
- rapid, 1984: Mar., 117
- Antinuclear antibody assays, in diagnosis of occupational lung disease, 1984: Sept., 531-532
- Antisera, bovine, detection of respiratory syncytial virus with, 1985: Sept., 598
- for bacterial identification and taxonomy, compared with monoclonal antibodies, 1985: Sept., 535-537
- polyclonal, to detect *Legionella*, 1985: Sept., 566
- Antithrombin BM, 1984: June, 247
- Antithrombin III, activity of, oral contraceptives and, 1984: June, 262
- assays of, functional, 1984: June, 263-265
- synthetic substrates for, 1984: June, 388-389
- clinical disorders involving, 1984: June, 255-259, 261-263
- clinical evaluation of, 1984: June, 265
- decreased production of, 1984: June, 261-262
- decreased survival of, 1984: June, 262-263
- deficiency of, anticoagulant therapy for, 1984: June, 260
- hereditary, 252, 1984: June, 256-257
- patterns of, 1984: June, 257-259
- pregnancy and, 1984: June, 260
- surgery and, 1984: June, 260
- tests for, 1984: June, 258
- therapy for, 1984: June, 259-261
- functional domains of, 1984: June, 247-248
- immunoassay of, 1984: June, 265-266, 356
- in liver disease, 1984: June, 426
- inactivation of thrombin by, 1984: June, 248-250
- increased levels of, 1984: June, 261-263
- interaction with heparin, 1984: June, 247, 249-251
- interaction with serine proteases, 1984: June, 254-255
- laboratory evaluation of, 1984: June, 263-265
- mechanism of action of, 1984: June, 249
- molecular biology of, 1984: June, 247-255
- purification of, 1984: June, 248

- Antithrombin III (*Continued*)
 structure of, 1984: June, 247-248
 synthesis of, L-asparaginase and, 1984: June, 262
- API system, for identification of *Enterobacteriaceae*, 1985: Mar., 26, 28
- API 20A system, for identification of anaerobes, 1985: Mar., 59-65
- APPT. See *Activated partial prothrombin time*.
- APTT. See *Activated partial thromboplastin time*.
- APUD cells, in carcinoid syndrome, 1984: Dec., 804-805
- Arabinitol, secreted by *Candida*, 1985: June, 351
- Arachidonic acid, metabolic pathways of, 1983: Dec., 623-624, 698
 metabolism, macrophage activation and, 1983: Dec., 677-694
 metabolites. See also specific substances, as *Prostaglandin(s)*; *Leukotriene(s)*.
 in endotoxin-induced lung injury, 1983: Dec., 724-729
 in inflammatory response, 1983: Dec., 684-685
 in neutrophil-mediated lung injury, 1983: Dec., 609-611
- ARDS. See *Respiratory distress syndrome, adult*.
- Arginine vasopressin, ectopically produced, 1984: Dec., 779-780
 in water metabolism, 1984: Dec., 729-737
 radioimmunoassays for, 1984: Dec., 732-737
- Arthritis. See also *Inflammatory disease(s)*.
 diagnosis of, in synovial fluid, 1985: June, 219
 prostaglandins and, 1983: Dec., 704-706
 rheumatoid, antibody markers of, 1983: Dec., 754-757
 arachidonate metabolites and, 1983: Dec., 685-689
- Arthus reaction, prostaglandins and, 1983: Dec., 706
- Ascitic fluid. See also *Peritoneal fluid*.
 analysis of, 1985: June, 197-200
 in monoclonal antibody production, 1985: Sept., 593
- Asphyxiation, in electrical deaths, 1983: June, 348
 in infants, vs. sudden infant death, 1983: June, 338-342
- Aspiration cytology, diagnostic accuracy of, 1984: Mar., 91
 limitations and value of, 1984: Mar., 89-98
- Aspirin, in prostaglandin inhibition, 1984: Dec., 789
- Assent, Newman's grammar of, 1984: Mar., 12-14
- Asthma, anaphylactic mediators and, 1983: Dec., 628
 occupational, skin testing for, 1984: Sept., 523-526
- Ataxia-telangiectasia, prenatal diagnosis of, 1985: June, 381
- Audit control, of laboratory information system, 1983: Mar., 176
- Autacoid(s), in anaphylaxis, 1983: Dec., 619-620
- Autobac IDX system, for identification of gram-negative bacteria, 1985: Mar., 94-95
- Auto-Clone flow cytometer, 1985: Sept., 590, 592
- Autoimmune disorder(s). —associated HLA antigens and, 1983: Dec., 747-748
 laboratory diagnosis of, 1983: Dec., 745-761
- Autoimmunity, theories of development, 1983: Dec., 745-747
- Automation. See also *Computers*.
 of blood banking services, cost containment and, 1985: Dec., 793-794
- Automicrobic system, for bacterial identification, 1985: Mar., 93-94
- Automobile(s), defective design, product liability and, 1983: June, 403
- Automobile-related deaths, pathologist's role, 1984: Sept., 633-634
- Autoprothrombin IIa, 1984: June, 266
- Autopsy, controversy over, 1984: Mar., 166
 in electrical deaths, 1983: June, 348-349
 in explosion deaths, 1983: June, 317-318
 in fire deaths, 1983: June, 298-306
 in medical quality assurance, 1984: Mar., 165-184
 in product liability deaths, 1983: June, 399-400
 rates of, impact on resource utilization, 1984: Mar., 180-182
 toxicologic analysis in, 1983: June, 368-370, 392-395
 traditional concept of, 1984: Mar., 166-171
- Avidin-biotin complex method, bridged, 1985: June, 234, 236-237
 in detection of autoantibodies, 1983: Dec., 758-759
- Avidin-biotin method, labeled, 1985: June, 234, 236-238
- B cell(s). See *Lymphocyte(s)*.
- Bacteremia, in the compromised host, identification of, 1985: Mar., 163-164
- Bacteria. See also *Microorganisms* and specific types.
 anaerobes, systems for identification of, 1985: Mar., 59-65

- analysis of body fluid for, 1985: June, 211
 causing diarrhea, DNA hybridization in
 diagnosis of, 1985: Sept., 447-462
 detection in cerebrospinal fluid, 1985:
 June, 216-217
 identification of, antigen/antibody-related
 systems for, 1985: Mar., 20-21, 27,
 44-55
 commercial systems for, 1985: Mar.,
 19-58
 direct differential tests for, 1985: Mar.,
 4-8
 direct microscopy for, 1985: Mar., 4
 indirect differential tests for, 1985:
 Mar., 8-13
 instrumentation systems for, 1985:
 Mar., 87, 91-97
 media-related commercial systems for,
 1985: Mar., 19-20, 22, 26-44
 microdilution and agar replicating sys-
 tems for, 1985: Mar., 67-89
 monoclonal antibodies for, 1985: Sept.,
 531-544
 plasmid fingerprinting for, 1985: Sept.,
 413-436
 recombinant DNA for, 1985: Mar., 99-
 107
 simple and rapid methods for, 1985:
 Mar., 3-17
 systems for, symposium on, 1985: Mar.,
 3-107
 infectious, molecular epidemiology of,
 1985: Sept., 437-445
 nonradioactive DNA probes to detect,
 1985: Sept., 463-473
 restriction enzymes in analysis of, 1985:
 Sept., 437-445
 serology of, 1985: Sept., 533-534
 Bactericidal dilution test, 1984: Mar., 112
Bacteroides, resistance of, 1985: Mar., 116
 Bactigen products, for bacterial identifica-
 tion, 1985: Mar., 44-45
 Ballistics, wound, 1983: June, 260-261
 Bands, microscopic definition of, 1984:
 Mar., 72-75
 Bartter's syndrome, prostaglandins and,
 1984: Dec., 792
 BASIC, 1983: Mar., 4, 7. See also *Program-
 ming languages*.
 BBL Microbiology Systems, for bacterial
 identification, 1985: Mar., 45-46
 BBL Pneumoslide test, for identification of
Streptococcus pneumoniae, 1985: Mar.,
 45
 BBL Staphyloslide test, for identification of
Staphylococcus aureus, 1985: Mar., 45
 Behring ELISA-Processor M, 1985: Sept.,
 609
 Benzene, occupational exposure to, setting
 standards for, 1984: Sept., 477-479
 Beta-glucuronidase, in cerebrospinal fluid,
 1985: June, 307-308
 Beta-human chorionic gonadotropin, in
 cerebrospinal fluid, 1985: June, 306
 Beta-lactamase, produced by *Neisseria gon-
 orrhoeae*, 1985: Sept., 467-468
 role in bacterial resistance, 1985: Mar.,
 116-117
 Beta₂-microglobulin, in cerebrospinal fluid,
 1985: June, 309
 Bile solubility test, for bacterial identifica-
 tion, 1985: Mar., 4-5
 Biologic monitoring, for toxic chemicals,
 1984: Sept., 502-505
 Biomedical products, defective design, lia-
 bility and, 1983: June, 403-404
 Biopsy, aspiration, limitations and value of,
 1984: Mar., 89-98. See also *Aspiration
 cytology*.
 Bio-Tek EIA Reader, for ELISA, 1985:
 Sept., 606
 Biotin, as label for DNA probes, 1985:
 Sept., 465
 to detect Epstein-Barr virus by in-situ
 hybridization, 1985: Sept., 503-512
 Bleeding, antibiotic-induced, 1984: June,
 238
 excessive, laboratory evaluation of, 1984:
 June, 285-301
 Bleeding disorders, diagnosis of, history and
 physical examination in, 1984: June,
 287-289
 follow-up tests for, 1984: June, 290-292
 laboratory evaluation of, 1984: June, 285-
 301
 screening tests for, 1984: June, 289-290
 Bleeding patient, laboratory evaluation of,
 1984: June, 285-301
 Bleeding time, 1984: June, 293-294
 in von Willebrand's disease, 1984: June,
 305
 platelet-type, 1984: June, 320
 Blood, alcohol levels, 1983: June, 386-395
 in fire victims, 1983: June, 306
 analysis of, for infection, 1985: June, 213-
 215
 as evidence, collection of, 1983: June,
 360-362
 drug levels, 1983: June, 369, 371, 380-
 383
 in electrical injury, 1983: June, 346
 infections of, in the compromised host,
 1985: Mar., 163-164
 Blood bank(ing), automated systems in,
 1983: Mar., 111-132
 cost containment in, 1985: Dec., 793-799
 Blood cell(s). See *Erythrocyte(s)* or *Leuko-
 cyte(s)*.
 Blood clotting, pathways of, 1984: June,
 207. See also *Coagulation pathways*.

- Blood count, complete, collection and handling of specimens for, 1983: Sept., 530
in pleural fluid, 1985: June, 198-199
- Blood cultures, for visceral candidiasis, 1985: June, 348-349
preanalytic factors in, 1983: Sept., 532
- Blood factor assays, 1984: June, 296. See also specific factors.
- Blood gas(es), collection and handling of specimens for, 1983: Sept., 525
- Blood platelet(s). See *Platelet(s)*.
- Blood poisoning, lung injury and, 1983: Dec., 719-744
- Blood products, federal regulation of, 1983: Sept., 444
labeling, in automated blood bank, 1983: Mar., 118-120, 123
- Blood stain, typing of, 1983: June, 360-362
- Bloom's syndrome, prenatal diagnosis of, 1985: June, 381
- Body fluid(s), alcohol levels in, 1983: June, 386-395
analysis of. See also under specific fluids.
cerebrospinal fluid cytopathology in, 1985: June, 275-302
clinical utility of, 1985: June, 195-208
electron microscopy for, 1985: June, 223-232
flow cytometry in, 1985: June, 391-405
for infection, 1985: June, 209-222
prognostic value of cytologic peritoneal washings in, 1985: June, 265-274
specimens for laboratory processing in, 1985: June, 209-212
symposium on, 1985: June, 195-405
use of immunologic tumor markers in, 1985: June, 233-264
drug levels in, 1983: June, 369-370
- Body water, regulation of, hormonal disorders of, 1984: Dec., 729-744
- Bombing(s). See also *Explosion(s)*.
injuries from, 1983: June, 304-305, 314-316
- Bone, aspiration biopsy of, 1984: Mar., 96
fracture. See *Fracture(s)*.
mineral content of, measurement of, 1984: Dec., 771-772
resorption, prostaglandins and, 1983: Dec., 703
- Bone biopsy, in assessment of bone metabolism, 1984: Dec., 771
- Bone disease, osteopenic, laboratory evaluation of, 1984: Dec., 763-774
- Bone marrow, aspiration biopsy of, 1984: Mar., 96
- Bovine anti-respiratory syncytial virus serum, used in indirect fluorescent antibody testing, 1985: Sept., 598
- Bovine thromboplastin, quantitation of activated Factor VIIa by, 1984: June, 233
- Bradykinin, in endotoxin-induced lung injury, 1983: Dec., 730-731
- Brain, aspiration cytology of, 1984: Mar., 90
- Brain injury, in battered child, 1983: June, 333-334
- Breast, aspiration biopsy of, 1984: Mar., 94
- Bridged avidin-biotin method, 1985: June, 234, 236-237
- Bronchial secretions, analyzed by flow cytometry, 1985: June, 401

- Monkshood, overdose, 1984: Sept., 612
- Monoclonal antibodies. See also *Hybridoma(s)*.
- against group A streptococci, 1985: Sept., 556-557
- against respiratory syncytial virus, 1985: Sept., 589-613
- against *Streptococcus agalactiae*, functional properties of, 1985: Sept., 552-553
- use as therapeutic agents, 1985: Sept., 553
- against *Streptococcus pneumoniae*, 1985: Sept., 557
- applications of, 1985: Sept., 540-541
- ascites fluid in production of, 1985: Sept., 593
- Chlamydia trachomatis* diagnosed by, 1985: Sept., 578-581
- for bacterial identification and taxonomy, 1985: Sept., 531-544
- compared with antisera, 1985: Sept., 535-537
- for estrogen receptor measurements, 1984: Dec., 827
- for identification of microorganisms, 1985: Mar., 104-107
- compared with DNA probes, 1985: Mar., 105-107
- for identification of tumor cell antigens in

- cerebrospinal fluid, 1985: June, 311-312
 for subtyping of *Legionella pneumophila* serogroup 1, 1985: Sept., 568-570
 future prospects, 1985: Sept., 541-542
 in autoimmune disorders, 1983: Dec., 759-760
 in diagnosis and epidemiology of *Legionella*, 1985: Sept., 561-574
 in organ transplantation, 1983: Dec., 777
 in-vivo protective role of, 1985: Sept., 596-597
 microencapsulation technique in production of, 1985: Sept., 593-594
Neisseria gonorrhoeae diagnosed by, 1985: Sept., 577-578
 probes and panels, 1985: Sept., 537-539
 screening of hybrid populations, 1985: Sept., 592-593
 specificity spectrum and fine (molecular) specificity of, 1985: Sept., 539-540
 to detect streptococcal antigens, 1985: Sept., 545-560
 to diagnose infectious diseases, symposium on, 1985: Sept., 530-613
 to diagnose sexually transmitted diseases, 1985: Sept., 575-588
 to distinguish herpes simplex viruses 1 and 2, 1985: Sept., 582-584
Treponema pallidum detected by, 1985: Sept., 585-586
Trichomonas vaginalis detected by, 1985: Sept., 586
 used in ELISA procedure, 1985: Sept., 603-605
 versus polyclonal antibodies, in indirect fluorescent antibody testing for respiratory syncytial virus, 1985: Sept., 599
 Monocyte(s), neutral proteinases of, 1983: Dec., 649-650
 role in proteolysis, 1983: Dec., 657-658
 Mosaicism, in prenatal diagnosis, 1985: June, 380
 Mucous membranes, irritation of, by plants, 1984: Sept., 604-605
 Mucus, cervical, compatibility of with sperm, test of, 1985: June, 367-368
 Multiple sclerosis, detection of in cerebrospinal fluid, 1985: June, 203
 Mumps, 1985: Mar., 6-7, 106-107
 Murray test, for identification of gram-positive cocci, 1985: Mar., 5
 Muscle, alcohol levels in, 1983: June, 387
 injury, from firearms, 1983: June, 283-285
 Muscular disease, autoimmune, 1983: Dec., 753
 Musculoskeletal sepsis, 1985: Mar., 111-119
 Myasthenia gravis, antibody markers of, 1983: Dec., 753
 Mycobacteria, susceptibility testing of, 1984: Mar., 115
 Mycoses, superficial, laboratory diagnosis of, 1985: Mar., 181-183
 Myelomas, in study of immunoglobulin synthesis and genetics, 1985: Sept., 532
 Myoglobinuria, versus hemoglobinuria, 1985: June, 323-324
 Nafazatrom, in inflammatory response, 1983: Dec., 688
 Nails, lesions of, identification of fungal infections causing, 1985: Mar., 179-180
 National Institute of Health (NIH) microbiology system, 1983: Mar., 107
 Needle biopsy. See also *Aspiration cytology*. 1984: Mar., 89-98
Neisseria, Minitek system for identification of, 1985: Mar., 34-35
 Remel rapid fermentation agar for identification of, 1985: Mar., 40
Neisseria gonorrhoeae, DNA probes for identification of, 1985: Mar., 100
 Gonozyme kit for identification of, 1985: Mar., 47-48
 monoclonal antibodies to diagnose, 1985: Mar., 105; Sept., 577-578
 penicillin-resistant plasmid in, identified by colony hybridization, 1985: Sept., 470-472
 identified by Southern blot technique, 1985: Sept., 467-470
 penicillin susceptibility of, 1984: Mar., 101
 Phadebact test for identification of, 1985: Mar., 52
 restriction enzyme analysis of, 1985: Sept., 442-443
 susceptibility testing of, 1984: Mar., 110
Neisseria meningitidis, restriction enzyme analysis of, 1985: Sept., 441-442
 Neoplastic disease. See *Cancer*.
 Nephelometry, in diagnosis of occupational lung disease, 1984: Sept., 528
 Nephrotic syndrome, decreased antithrombin III survival with, 1984: June, 263
 Networking, of computer information systems, 1983: Mar., 200
 of HIS/LIS systems, 1983: Mar., 229-230
 Neural tube, defects of, glial fibrillary acidic protein in diagnosis of, 1985: June, 242
 prenatal diagnosis of, 1985: June, 373-375
 Neurotoxic substances, 1984: Sept., 489-497
 Neutrophil, altered function, in burn injury, 1983: Dec., 804-808
 chemotaxis, in burn injury, 1983: Dec., 804-806
